Absorption of United Dressed Beef  
Company of New York by the Na-  
tional Packing Company Aids Trust.

NEW YORK, June 28.—(Exclusive  
Dispatch.) The exposure of the pur-  
chase of the United Dressed Beef  
Company at East Forty-fourth street,  
by the National Packing Company has  
created alarm among the New York  
City and Jersey City butchers. The  
Board of Health has sent for Isaac  
Blumenthal, president of the beef com-  
pany, for an explanation of the sale  
of his company to the beef trust.  
As the former's slaughtering permit is  
marked "not transferable." It may  
be revoked at the discretion of the  
Board of Health. It had been reported  
that the trust had absorbed this in-  
dependent company, and much uneas-  
iness existed among many small stock-  
holders, who had grown tired of the  
oppression of the beef trust, and had  
shown their savings in the United  
Dressed Beef Company, under the be-  
lief that they would then be safe from  
the domination of the packers.

### HE MAY BE "DONE"

Harry Keely Threatens to "Do" a Po-  
liceman to Get Even and Patrolman  
McGrath Falls a Victim of His Fire.

(BY THE ASSOCIATED PRESS.—P.M.)  
NEW YORK, June 28.—His threat  
that he would "do" a policeman to  
square accounts for the many times he  
has been arrested may lead Harry  
Keely of Clinton, S. I., to the electric  
chair. He has been arrested, while his  
victim, Patrolman McGrath, is in a  
hospital at New Brighton so severely  
wounded that his life is despaired of.  
Keely shot McGrath three times.  
Keely recently was released from  
prison after having served five years  
for manslaughter. Because of his im-  
prisonment he vowed vengeance against  
the police. When McGrath attempted  
to arrest him today because he was  
raising a disturbance, Keely drew a  
revolver and opened fire. He was cap-  
tured after a hard fight, in which he  
was knocked unconscious.

was the only juror against the convic-  
tion of Curtis Jett. While discussing  
the course of Juror Fitzpatrick, John  
Henry Hecker, the friend of Miss Bar-  
nett, resented what was said, and all soon  
began shooting. There have been no  
arrests, and no one can tell who fired  
the shots.

such matters. The award of the Coal

selves by conferences, and this will now

## ONE HUNDRED DIE IN RAIL DISASTER.

Saturday Night's Wreck in Spain Most  
Terrible in Years.

Of Three Hundred Souls on Board the Train When It  
Jumped the Track Only Six Escaped Unhurt—Little  
Mejorilla River Runs Blood—Train Hands Found  
With Belongings of the Dead in Their Pockets.

(BY DIRECT WIRE TO THE TIMES.)  
MADRID, June 28.—(Exclusive Dis-  
patch.) A horrible railway accident  
occurred Saturday night near  
the northern borders of Spain, when the  
Bilbao express of the Northern Rail-  
way plunged head foremost from a  
bridge into the Little Majorilla River.  
About 100 passengers were killed,  
either by crushing or drowning, and  
of 200 souls on board only six escaped  
unhurt. The accident is the most  
terrible that has occurred in this king-  
dom in many years.

The scene of the accident is about  
forty miles southeast of Bilbao and in  
the Valley of the Ebro, which drains  
three great mountain ranges. The  
country is rough and mountainous. The  
train of eighteen coaches was drawn by  
two locomotives. Crossing the bridge  
about fifteen meters above the Little  
Majorilla, a stream which empties a  
short distance away into the Ebro, the  
rear locomotive jumped the track and  
was not again seen. In an instant  
the engine had toppled over into the  
river, pulling the cars after it. The  
train was going about thirty-five miles  
an hour at the time, and the impact  
was tremendous.

In an instant there was a great heap  
of shattered cars, piled up, from the  
depths of which came horrible shrieks  
and cries for assistance. The cars at  
the bottom were quickly locked in and  
unable to escape. Those not pinned  
down were quickly submerged and drowned  
before help could reach them. Others died  
while men were trying to surrender with  
them. The rescue of the survivors was  
difficult, and for fifteen minutes  
the water of the little mountain  
stream, now running low from summer  
drought, was stained deep crimson by  
the blood of many victims.

As quickly as possible those who were  
able to work got out axes and other im-  
plements and started in to rescue the  
wounded. The work was impeded by  
the darkness, and though large bonfires  
were built to supply light and warmth,  
for the night air in the mountain was  
cold and damp, their efforts were made  
the work of digging out the injured long  
and difficult.

Three hours after the accident two  
relief trains, with men and tools and  
surgeons and nurses, reached the scene  
from Bilbao. Many volunteers from  
nearly points were already at work,  
caring for the sufferers.

Besides surgeons and the hospital  
corps, there were 100 military engineers  
on the relief trains. The soldiers dis-  
covered the railway hands had been  
robbing the dead and dying, and in  
short order they had a dozen under ar-  
rest. A search of their pockets re-  
vealed the presence of much jewelry  
and money, which had been evidently  
taken from the victims. The robbers  
will be executed tomorrow.

FIFTY INJURED TAKEN OUT.  
(BY THE ASSOCIATED PRESS.—P.M.)  
MADRID, June 28.—Fourteen bodies  
and fifty injured persons have been ex-  
tracted from the wreckage of the Bilbao  
train last night. According to official  
information, thirty persons were killed  
and sixty others seriously injured.  
Many of the latter will die. Of the 300  
passengers on the train it is stated that  
only six escaped unhurt. It is believed  
that the official figures underestimate  
the number of killed, as some accounts  
give the number of dead as 100. The  
full extent of the catastrophe will be  
known only when the wreckage has  
been cleared away.

LATER.—The latest dispatch from  
Saragossa, near which place the train  
crossed the Ebro, says that the catastrophe  
occurred, gives the number of  
dead as ninety and the injured as one  
hundred. The rescue of the injured  
from the debris is not yet complete.

## LABOR AGITATORS IN PHILIPPINES.

WASHINGTON, June 28.—(Exclu-  
sive Dispatch.) Gov. Taft has is-  
sued a warning to labor agitators  
in Manila in which he says it is not  
likely that it will be the dupes and  
victims who will receive the severest  
punishment. This warning is contained  
in a telegram sent from Benguet to Dr.  
Domingo Gomez, a Manila labor agi-  
tator, who petitioned the Philippine  
Commission asking that a notorious  
laborer be permitted to surrender with-  
out punishment. The War Depart-  
ment today received a copy of Gov.  
Taft's reply. He says:

"Faustino Guillermo, whom you in-  
correctly designate as a Revolutionary  
general, is a ladrone and an escaped  
fugitive from justice on a charge of  
murder. Neither to him nor any com-  
panion of his will pardon be extended.  
This suggestion of yours is of a piece  
with your preposterous request which  
you announced you proposed to present  
to me, that we grant immunity to the  
ladrone of Rizal and Bulacan and give  
them labor or support for a year."

"It seems proper for me to warn you  
that much information is coming to me  
that, taking advantage of the present  
unfortunate depressed condition of agri-  
culture and business here, you are driv-  
ing through the Union Obhera Partido  
Nationalista, to incite ignorant classes  
of people to disorder by means of  
defily-worded and staged seditious and  
treasonable drams and in many other  
ways, and that in the operation of  
order it is not the dupes and victims  
who are likely to receive the severest  
punishment."

### HIS FEARS WELL GROUNDED.

NON-UNION WATCHMAN SHOT.  
(BY THE ASSOCIATED PRESS.—P.M.)  
CHICAGO, June 28.—Jesse McLean, a  
non-union machinist, was shot and fat-  
ally wounded tonight while standing  
in front of a building where he was  
employed as a watchman.

Previously McLean had worked in a  
machine shop. When the machinists  
went on strike he refused to join them.  
He was attacked by a mob of non-union  
men, who were likely to receive the  
severest punishment.

### TELEPHONE LINEMEN'S STRIKE.

SAN FRANCISCO, June 28.—There  
are important developments in the  
strike of the telephone linemen today.  
The President of the telephone com-  
pany today issued a circular offering  
a reward of \$1000 for the arrest and  
conviction of the persons who, about  
6 o'clock this morning, cut the main  
line of 30 wires on the San Pablo  
road, Alameda county.

All Quiet at Richmond.  
RICHMOND (Va.) June 28.—The  
situation today was entirely  
quiet. Cars were run on all lines today  
and tonight, under military protection,  
as usual.

### CHRISTIAN SCIENTISTS.

Fifteen Thousand Attending Annual  
Communion Service at Boston—Will  
Make Pilgrimage to Mother Eddy's.

(BY DIRECT WIRE TO THE TIMES.)  
BOSTON, June 28.—The annual com-  
munion service of the Mother Church  
of the Christian Science denomina-  
tion, the first church of Christian  
Scientists, was held in Mechanics' Hall  
today, the three congregations aggregat-  
ing over 15,000 persons. Dr. H. W. Hering,  
formerly of Johns Hopkins University, and who is a son  
of Dr. Constantine Hering, one of the  
founders of this denomination, presided.  
He was assisted by Dr. E. E. Williams,  
official as first reader, and Mrs.  
Ella E. Williams was second reader.

Before each service was brought to  
an end, Prof. Hering read a letter from  
Mrs. Eddy, in which she expressed her  
love for her church, and invited com-  
municants to visit her tomorrow at  
her home in Concord, N. H. Many  
thousands of the Scientists will make  
the pilgrimage, and already numerous  
special trains have been chartered. It  
is estimated that about 15,000 members  
of the denomination have come here  
to attend the services.

### GOOD ORDER IN KENTUCKY.

LEXINGTON (Ky.) June 28.—The  
annual session of the Kentucky Sen-  
ate of the revolution closed with the adop-  
tion of resolutions deploring the recent  
unlawful acts which have occurred in  
that State, and calling for the punish-  
ment of the criminals, no matter what  
their station in life might be.

### POSTAL'S NEW LINE.

Carloads of Material Dumped Along  
the Union Pacific Although Papers for  
Right-of-way Are Not Yet Signed.

(BY DIRECT WIRE TO THE TIMES.)  
OMAHA, June 28.—(Exclusive Dis-  
patch.) The Postal Telegraph Com-  
pany has finished placing construc-  
tion material along the line of the  
Union Pacific in readiness for building  
its new Omaha-San Francisco line,  
and actual building may commence any  
day. Many carloads of all kinds of  
material have passed through Omaha  
within the past thirty days, and are  
now at convenient points on the rail-  
road. The work has been delayed by  
the inability of the Union Pacific and  
Postal companies to make a contract  
whereby the telegraph company might  
use the railroad right-of-way, but this  
is said to have been amicably ar-  
ranged, although the papers have not  
yet been signed, President Burt being  
in the East at present.

The Western Union Telegraph Com-  
pany is said to have notified the Union  
Pacific that the road would be held  
responsible for breaking the agree-  
ment giving the Western Union the  
exclusive privilege along that road.  
So confident is the Postal Company  
that the agreement will be signed that  
it is assembling many construction  
gangs in Omaha, and everything is in  
readiness for work to begin. The of-  
ficials of that company have stated  
that within ninety days after work be-  
gins the line will be completed to Og-  
den. Another sixty days, and the new  
line will connect with the Postal's pres-  
ent lines in California.

When completed, the new lines will  
be the Postal's main line from New  
York to San Francisco and via cable  
to Manila. There will also be branches  
to Denver and Butte.

### ACTRESS'S HUSBAND CLAIMANT TO THRONE.

EUGENE LAZAROVICH OF SOME  
IMPORTANCE TO SERBIA.

King Peter's Reign Regarded Merely  
As a Stop-gap—Predictions Made That  
His Son Will Succeed Him Under Rus-  
sian Auspices—Assassins Assert They  
Did Not Intend to Kill.

(BY DIRECT WIRE TO THE TIMES.)  
LONDON, June 28.—(Exclusive Dis-  
patch.) Eugene Lazarovich, the  
Serbian, who recently married Eleanor  
Palmer, the American actress, is a  
possible candidate for the Serbian  
throne, claiming descent from the an-  
cient Lazar family of Macedonia. He  
has two sons by previous marriage with  
a French Countess.

Lord Lansdowne receives full praise  
for his discreet action in recalling the  
British Minister from Belgrade. Some  
regret is expressed that he did not  
emphasize English condemnation of  
the government by assassins by prompt  
and more decisive measures.

King Peter's reign is not regarded  
by experienced observers as anything  
more than a stop-gap, and there are  
confident forecasts of a substitution  
of the son for the father, and the  
creation of a regency under Russian  
auspices.

approval will be liable to removal from office.  
Treasury officials express decided objection to persons employed in the customs service engaging at the same time in some other business, and intend to break up this practice as far as possible, holding that it is detrimental to the best interests of the service. There are many exceptions to this rule, but where the government needs the service of an employee in the customs department outside of regular office hours, and if they happen to be engaged in business which interferes with this, then the government is the sufferer. For this and other reasons of public belief the best interests of the public service will be conserved by employees not engaging in other business.

# THAT CANAL FUSS.

DR. HERAN NOT ENCOURAGED.  
BY DIRECT WIRE TO THE TIMES  
WASHINGTON, June 28.—(Exclusive Dispatch.) Little encouragement is found by Dr. Heran, the Colombian chargé d'affaires in the news from Bogota, that the government's refusal to make public all papers bearing on the canal treaty has been sustained in the lower house by a vote of 38 to 5.  
That vote can in no sense be considered a test vote, the attitude of the House, on the treaty, declared Dr. Heran, tonight. "It only shows the some of the opponents of the treaty appreciate the difficulties in the way of making public the correspondence at this time."

Whether any of the papers asked for will eventually be sent to Congress depends in a large measure upon the persistence with which the treaty's opponents press their demand. It is the belief here that there were certain exchanges between Colombia and the United States, leading up to the signing of the treaty, which can under no circumstances be published without causing embarrassment to at least one of the signatory powers and perhaps endangering the stability of the Marquand government.

# WASHINGTON BRIEFS.

## Rio's Vast Harbor Works.

WASHINGTON, June 28.—United States Minister to Brazil, reports to the State Department that the government has embarked on a scheme for vast harbor works at Rio, involving the building of two and a quarter miles of stone dock. The cost of this great work will be \$10,000,000, to be raised through bonds placed by the Rothschilds. KANSAS CITY, June 28.—Street-cars crossed the Kansas River about noon today, connecting the two Kansas cities after an interruption of exactly four weeks, caused by the great flood. Only one of the three inter-city street-car lines is in operation, and this one uses a temporary bridge. The other two are being replaced by permanent steel structures. The bridge is now in use, but only one is a permanent steel structure. In replacing the destroyed bridges, stronger and higher roadways will be built to withstand future floods. Otherwise, the inundated district will be little changed when fully recouped.

## MONTEPEY EN FETE.

Montepez was en fete Thursday, when the steel works turned out the first piece of commercial steel at a plant built with Mexican capital, of native materials, and conducted by skilled American and Mexican labor. It was fired with native coke made from native coal and the iron used was from native mines. The first piece of steel is a regulation beam. The institution represents an investment of \$10,000,000. After turning out the long beam the plant was formally inaugurated. The plan at present is to use the open-hearth system only, but in one year the plant probably will adopt a more improved Bessemer process. At present 500 men are employed, but as soon as the factory is in full running order 1000 will be employed.

**Society Women's Lark.**  
 "Society" circles in St. Louis are discussing an admission ticket a little "disgrace" party which was held a few days ago at the home of a well-known hostess. The party was given at the city by the members of a *cauchre club*, composed of prominent society women.

The women were dressed in their husband's clothing and prizes were awarded to the women who put in the most time.

The fact that some of the women are much taller and heavier than their husbands has caused some of them to comply with the terms of the agreement, and it is hinted that some cheated inasmuch as they purchased their tickets at a large price for their husbands by several feet.

The escapade happened during broad daylight and the party was given at the home of the hostess in carriages.

Most of the women wore cloaks over their costumes, and did not display their trousers and coats until after the prizes were awarded.

Very few of them understood the game, but those who did proceeded to show the others, and used matches for

## DISCOVERY OF MRS. O'NEILL

With Her Husband Tarrying  
in Indian Territory.

Discovered Wife in Pursuit of Much  
Wanted Embezzler.

Trying to Get Seven-year-Old Son  
Away from the Suspected  
Couple.

Beautiful Mrs. O'Neill, whom the police of this city were looking for in connection with the murder of George L. Mills, is with her husband, Jay A. O'Neill, in South McAlester, La.

O'Neill, who is wanted here on two charges of embezzlement, and in the event of his extradition from the Indian Territory will probably be tried for the murder of Mills, is at liberty, having been released from South McAlester yesterday by a letter she had written to a local firm of jewelers inquiring about a watch which she had left here to be repaired.

A special dispatch to The Times received yesterday from South McAlester confirms this belief. It also sheds some light on O'Neill not hitherto known.

The telegram states: "Mrs. O'Neill, who is charged with Mills' murder, is accompanied by a blonde woman, his alleged second wife, and by his little son, whose divorced mother lives in Dayton, O., and who has been trying to get possession of him through officers here."

The dispatch states that O'Neill had admitted everything in connection with the divorce before word was received ordering his arrest.

O'Neill has been hard at work in South McAlester, to which point he went after leaving Los Angeles, trying to organize a syndicate to deal in marble deposits in the Cherokee nation, in which he endeavored to interest certain Los Angeles people.

O'Neill claims that he did not swindle Middleton, the Covina man. He says that he traded some oil stock to him for the fine shotgun which he now has in his possession and that he supposed Middleton became convinced he had got the worst of the bargain and wanted his money back.

In none of the dispatches received by The Times, however, has O'Neill mentioned his connection with Dodge Bros. Company, nor the embezzlement of \$254 of the firm's money.

The following statement contained in a message above what a favorable impression O'Neill has made in South McAlester and how little they believe that he is a murderer.

The fact that the first telegram received from the Los Angeles authorities mentioned in detail the shotgun and other matters, and only added that there was an indictment for murder, as though it was an after thought, taken in connection with Dodge's telegram, led to O'Neill's being admitted to bail, and sympathy caused his acquaintances to become his bondsmen.

The Dodge telegram referred to is the one in which Howard A. Dodge offered to drop the embezzlement charge against O'Neill if he would wire the \$254 immediately.

Of the utmost importance to the police is the knowledge of Mrs. O'Neill's whereabouts. Chief Elton stated yesterday night, the day on which O'Neill was suspected connection with the Mills murder was published, that if he could have a two hours interview with the woman, he felt assured that the true facts in the case would be known.

Now that the authorities are aware where Mrs. O'Neill is, the next problem will be how to get her here.

But if her husband is extradited, the supposition is that he will follow him to Los Angeles, and an opportunity will be given for identification by those who claim to have seen her coming from the house of murder.

O'Neill was released from jail Saturday, yet had made no move to leave South McAlester up to yesterday evening, and this in spite of the appeal of Sheriff White to arrest him on a felony charge.

O'Neill has been informed of the more serious charge against him, yet he stays to wait it, claiming that he never knew Mills, nor heard of his murder, until he was enlightened at the time of his arrest.

**ENOUGH FRANCIS MURPHY.**  
Great Gospel Temperance Meeting Last Night in Blanchard Hall—Many Pledge Signs.

That Francis Murphy, the gospel temperance hero, was a young man last night, as he declared, no one doubted, for a man is only "as old as he feels."

Murphy took "Hunger" for his subject, and he gave touching illustrations of what it means for a man and his children to be hungry. That he was effective is best demonstrated by the fact that forty-five persons went forward and signed the gospel temperance pledge at the close of the meeting.

Draped upon men and women the importance of hungering after righteousness.

It used to be, long ago," he said, "that a person had to go to a certain city to get religion, but now you can get it in this beautiful city, and see it, Jesus Christ was the Columbus who discovered the way."

He also told of hunger among soldiers on the line, and being compelled to eat "on a cracker." An eloquent tribute to the old flag and to gallant Phil Sheridan elicited a storm of applause for the eloquent Murphy was never more eloquent.

Blanchard Hall was packed to the limit, all available chairs having been brought into service to seat the crowd and then scores had to stand.

**WHEN I AM DEAD, MY DEAREST.**  
When I am dead, my dearest,  
Slay no sad songs for me;  
Sing no dirges at my head,  
No stately eulogies on me.

Be the green grass above me,  
With showers and dewdrops wet;  
And if thou wilt, forget,  
I shall not see the shadows,  
I shall not feel the rain,  
I shall not hear the lullaby,  
Sing on, as if in pain;

And dreaming through the twilight  
That doth not rise on me,  
Happily may I forget,  
And happily may I forget,

### WILLIAMS' TRIP.

Local Man Leaves for Europe and Orient to Study Mining Methods—May Go to Egypt.

Howard W. Williams, formerly connected with the western office of the Continental Development Company, left yesterday for an extended tour in Europe, Asia, and perhaps the northern part of Africa, in the interests of business.

Mr. Williams, who has lived in Southern California for some years, has a wide circle of friends who wish him the best of luck in his new venture.

By profession he is a mining engineer, and goes to study the mineral deposits and their workings all over the continent of Europe, and incidentally some new salt mines which have just been opened up in Persia.

He believes that in this country lie vast fields of mineral deposits which may eventually be of great value, but which are now regarded as comparatively worthless, because of the hard work necessary for ore reduction, or on account of some other difficulty.

Mr. Williams cites the great United Verde mine, with its copper sulphide ore, which material was formerly deemed fit only for the dump.

It is understood that in some of the older mines of the Old World remarkable new methods are now employed to save all possible material. It is this that the American investor goes to see, as he either owns or represents large mining properties throughout the Southwest, and in Mexico.

With him he takes his wife and little child. For Mrs. Williams it will be quite a trip, as she was born, and raised, and schooled in Southern California. Needless to say, she looks forward with delight to her conquest of strange lands.

Besides being a mining expert, Mr. Williams is also something of an archaeologist and antiquarian, and he expects to pay a visit to Egypt and the Royal Library of Alexandria before his return.

In all probability he will be back in Los Angeles next May.

**SPRING-STREET SCHOOL.**  
The graduating exercises of the Spring-street school took place Thursday afternoon. The rooms were festively decorated in the class colors, ferns and palms, this being done by the B class in honor of the graduates.

"America," sung by the class, opened the programme, after which came the class play—"The Lady of the Lake." Another class song, "Annie Laurie," was given. The class history was read by Anna St. John, the prophecy by Gifford Salmon, and the class will by Clara Hamilton. An address was given by Deputy Superintendent J. B. Millard, and an exquisite bouquet was presented to Mrs. Dunston, the eighth-grade teacher.

The members of the class are: Belle Blackely, Lillian Fover, Edith Armstrong, Clara Herford, Olive Wilson, Rosa Horwitz, Edith Whistler, Amy Miller, Ada Manning, Emma Cramer, Ella Stoll, Anna St. John, Clara Hamilton, Ethel Coleman, Katherine Bosward, Pearl Grant, Dora Goldring, Lizzie Doody, Gifford Salmon, Eddie Jager, Gary Carr, Fuller Thompson, Ludwick Wolfard, Angel Sato, Don Hawley, Charles Salter and George Stephens.
